

ACTIVITY 1

A. Read the following text and answer the questions.

At a certain company, special parking spots are reserved for the top executives and they are lined up in the following order: CEO, president, vice-president, secretary, and treasurer. The cars are yellow, green, purple, red, and blue, and the executives' names are Anna, Bob, Cheryl, Tom, and Emma.

- The car in the last parking spot is purple.
- The secretary drives a yellow car.
- Anna's car is parked next to Tom's.
- Emma drives a green car.
- Bob's car is parked between Cheryl's and Emma's.
- Tom's car is parked in the last parking spot.

- The car in the first parking spot is red.
- A blue car is parked between the red car and the green car.

a) Who is the secretary?

() Emma () Tom () Cheryl () Bob () Anna

b) Who is the CEO?

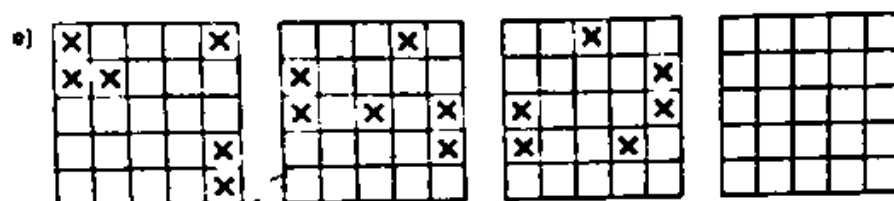

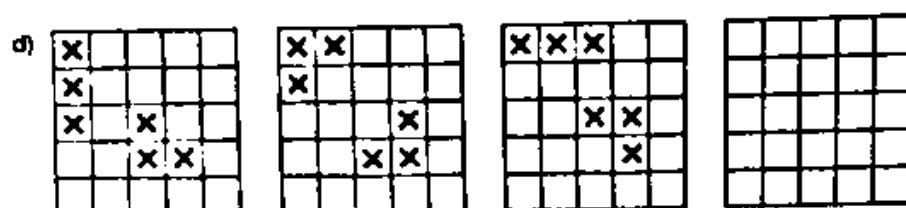

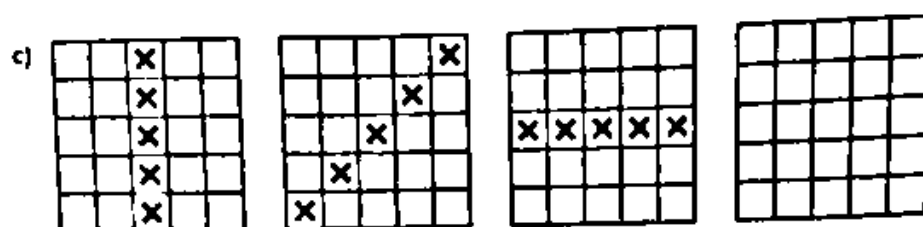

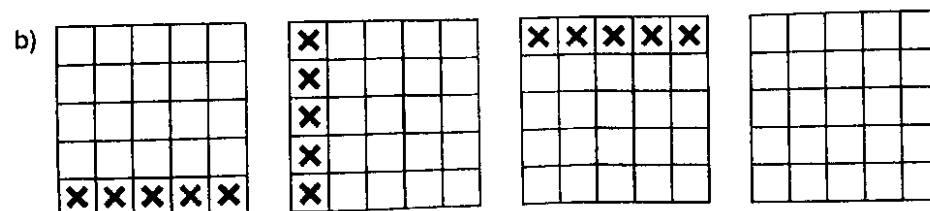

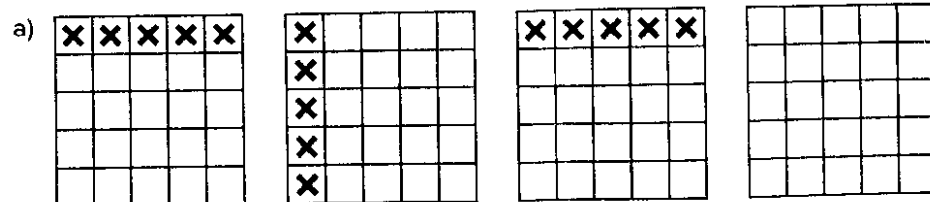

() Anna () Bob () Cheryl () Tom () Emma

c) What color is the vice-president's car?

() Green () Yellow () Blue () Purple () Red

ACTIVITY 2

Can you say what the next image is in each pattern?

ACTIVITY 3

Read the following riddles and, in groups, try and find the correct answer.

a) Sam was looking at a photo. Someone asked him, "Whose picture are you looking at?" He replied, "I don't have any brothers or sisters, but this man's father is my father's son." So, whose picture was Sam looking at?

b) Mary's mother has four children. The first child is called April. The second May. The third June. What is the name of the fourth child?

c) A poor man and a rich man are talking about music. The poor man says he can name a song with any name in it. The rich man says, "OK, if you can find a song with my son's name in it, I will give you \$1,000. His name is Hocinaes Caradoc." The poor man gives his answer and receives \$1,000. What was his answer?

d) In a horse race, Acer came in ahead of Trigger. Acer finished after Badger. Caesar beat Badger but finished after Ebony. In which position did Caesar finish?

e) Forty-two is seven times a certain number. What is eleven times that number?

f) One third of a number is four times eleven. What is half of that number?

g) Ava, Olly, Hillary, and Hannah are language students. Ava and Olly speak Mandarin, and the others speak Arabic. Olly and Hannah speak Albanian. Everyone except Ava speaks Esperanto. Who speaks only one language? Who speaks more than one language, but not Arabic?

h) You are getting dressed for a business dinner and the lights go out. You don't have a flashlight or candles and your smartphone is out of battery. You have six white socks and six black socks in your drawer, all mixed up. How many socks do you need to take from the drawer to be sure you're taking two socks of the same color?
